

Audit Analytics for Academia

Innovative data solutions for scholars.

Founded in 2003, Audit Analytics is the go-to source for independent research and data of audit, regulatory, and disclosure intelligence. As a trusted source for research, our data is collected, organized, and analyzed with rigor by our expert team of researchers.

More Data. More Opportunities.

Audit Analytics is used by more than 300 universities and colleges around the world for cutting edge research and classroom applications. For two decades, our unique and innovative databases have propelled archival research, expanding the body of knowledge and contributing immeasurably to academic literature.

Audit Analytics is simply a must-have for every business school and accounting department.

DID YOU KNOW?

300+ Universities

More than 300 colleges and universities currently subscribe to Audit Analytics.

1,500+ Papers

To date, Audit Analytics has been cited in over 1,500 academic papers.

40+ Journals

Papers citing Audit Analytics have been published in more than 40 academic journals.

Audit Analytics is a proud member of the Association to Advance Collegiate Schools of Business (AACSB).

Satisfy AACSB Standards by leveraging Audit Analytics databases for data analysis with real-world applications.

Best in class Data. Best in class Support.

Quality data can be hard to obtain, requiring endless hours of research and effort. With over 50 databases containing highly accurate, comprehensive, normalized, and structured audit and regulatory data, Audit Analytics makes it easy to:

- Leverage databases to examine audit, regulatory, and financial reporting trends
- Integrate extensive data in class exercises and assignments
- Support class instruction with interactive auditor and company profiles
- Gain access to case studies or create your own
- Stay apprised of current events

“*Audit Analytics has no peers. There's just no other data provider out there that can compare. I couldn't speak more highly of them.*

- Dr. Scott Whisenant | University of Kansas

”

Join hundreds of universities and thousands of professors and students from around the world who use Audit Analytics everyday.
