DATA DICTIONARY - RESTATEMENTS
Overview

The restatement data set covers all SEC registrants who have disclosed a financial statement restatement in electronic filings since 1 January 2001. The data has been extracted principally from the following form types: 8-K, 8-K/A, 10-K, 10-Q, 10-Q/A, 10-K/A, 10KSB, 10KSB/A, 20-F, 20-F/A, 40-F and 40-F/A’s. We analyze all 8-K and 8-K/A filings containing restatement information identified with the title 4.02 “Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review” since August 2004. Amended filings are analyzed by queuing for analysis those filings which contain any of the words “restate”, “restatement” or “restated.” Additional analysis includes the quarterly search of all audit opinions for derivatives of the word “restate” and the subsequent examination of the corresponding filings.
